SUMIT PRAMANIK

Full Stack Engineer (Node.js, React.js) | AI / GenAI Application Development
Jaipur, India | +91-9587130971 | sumit.pramanick@hotmail.com | linkedin.com/in/sumitaasur

PROFESSIONAL SUMMARY

Full Stack Engineer with 8+ years of experience building production-grade web, mobile and backend applications with Node.js, React.js, React Native, Next.js and MongoDB. Strong in RESTful API design, third-party and AI-service integration (Firebase, Twilio, Agora, payment gateways), and end-to-end delivery of 17+ applications across fintech, healthcare, fitness, logistics, education and e-commerce for clients in the US, Europe, UAE, Australia and India. Daily user of AI-assisted development tools (Claude, GitHub Copilot, Cursor, ChatGPT, Codex), now focused on GenAI application development: integrating LLM APIs, building RAG-based features and AI-powered interfaces on a Node.js and React stack, while expanding into Python and FastAPI.

CORE SKILLS

Backend: Node.js, Express.js, RESTful API Design, API Integration, Authentication, Role-Based Access Control, MongoDB, MySQL
Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Redux Toolkit, Context API, HTML5, CSS3, Three.js, Responsive Design
Mobile: React Native (Android & iOS), Cross-Platform Development
AI / GenAI: LLM API Integration, Prompt Engineering, RAG (Embeddings, Vector Search), AI Chat Interfaces, AI-Assisted Development (Claude, GitHub Copilot, Cursor, ChatGPT, Codex)
Integrations: Firebase, Twilio, Agora, Payment Gateways, In-App Purchases, Axios, REST APIs
Cloud & DevOps: AWS (CloudFront, S3, CloudWatch), Git, Jenkins, CI/CD Pipelines, App Store & Google Play Release Management
Performance: Lazy Loading, Code Splitting, Memoization, React DevTools Profiling
Currently Learning: Python, FastAPI, Agentic AI
Practices: Agile, Scrum, Architecture & Technical Decision-Making, Code Reviews, Mentoring, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Konstant Infosolutions | May 2025 – Jul 2026

- Developed REST APIs and Node.js services and integrated Twilio across web and mobile, tightening code review and testing practices to catch defects before they reached end users.
- Owned architecture and end-to-end delivery of scalable React.js, React Native and Node.js applications for international clients, establishing patterns that kept performance and maintainability consistent across frontend, mobile and backend codebases.
- Served as the primary technical point of contact for cross-functional teams, translating client requirements into full-stack, production-ready features and improving delivery predictability.

Full-Stack / React Native Developer — Freelance | Oct 2024 – May 2025

- Delivered custom, production-ready web, mobile and backend solutions for international clients, owning the complete project lifecycle from requirements gathering through deployment.
- Acted as sole technical decision-maker across client engagements, setting architecture, tooling choices and delivery timelines directly with stakeholders.

MERN Stack Developer — Dotsquares Technologies | May 2023 – Oct 2024

- Developed RESTful APIs using Node.js, Express.js, MySQL and MongoDB to power web and mobile backends, alongside interactive 3D web experiences built with Three.js in Next.js applications.
- Integrated in-app purchases and multiple payment gateways, enabling secure monetization across web and mobile platforms.
- Built secure admin panels with role-based access control and data management features, giving stakeholders operational visibility and control.

React Native Developer — Arka Softwares Pvt Ltd | Feb 2022 – Mar 2023

- Developed cross-platform mobile applications using React Native integrated with the Agora SDK for real-time communication features.
- Integrated Firebase and third-party services, streamlining data management and strengthening app reliability.

React.js / React Native Developer — Dev Technosys Pvt Ltd | Nov 2019 – Feb 2022

- Developed cross-platform mobile and web applications using React Native and React.js for global clients, contributing to consistent on-time delivery across concurrent projects.
- Integrated Firebase and third-party services, ensuring reliable data flow and reducing integration-related bugs.

Quality Analyst — Bill Gosling Outsourcing (formerly MattsenKumar Pvt. Ltd.) | May 2018 – Sep 2019

- Created, executed and maintained test cases and test data; performed functional, regression, smoke, sanity and UAT testing to ensure software met requirements.

KEY PROJECTS

Medara Health (React.js, React Native, Next.js): Healthcare platform (pre-launch) connecting patients, doctors and labs across four surfaces: patient mobile app, patient web app, doctor portal and lab portal, with appointment, consultation and diagnostic-report workflows.

NASM EDGE (React.js, React Native): Fitness management platform for personal trainers across web and mobile from a shared codebase, covering workout programming, client management and progress tracking.

Bonify (React.js, Next.js, React Native): German digital financial platform offering free SCHUFA credit scores; built web and mobile experiences with shared logic and personalized credit-optimization insights.

Blue Sky Peptides (React.js, Next.js, Redux): US pharmacy e-commerce platform; implemented Redux-based cart and checkout and integrated payment gateways for secure self-serve ordering.

Clinical Trial Link (React Native, Next.js): Platform for managing clinical trial participation; built patient registration flows in React Native and a Next.js portal for hospitals and clinics.

Luqman (React Native, Firebase, Agora): Arabic education app with real-time calling via the Agora API, Firebase backend data and a post-call rating system.

MetaMerch / Metalete (React.js, Next.js, React Native, Three.js): 3D customization products for UK and US clients: real-time 3D merchandise and athlete avatar rendering with interactive customization controls.

Glimpse It (React Native): Australian low-tox household products app built end to end, covering product discovery, recommendation-style browsing and purchase flows.

Additional: Dehurdle (meditation app), Coffee Hub (UAE ordering app), CarpetRight UK (Yext store locator), 86 Agency (Three.js marketing site), StudyGoGo (education platform), NAS Freight Solutions (Kenyan logistics platform), Ozeki Sake (product comparison site).

ACHIEVEMENTS

- Improved application performance by up to 35% through code-splitting, lazy loading and component-level optimization.
- Reduced development turnaround time by approximately 30% by designing reusable component libraries and frontend standards.
- Delivered 17+ production-grade web, mobile and full-stack applications; launched and maintained multiple apps on the Apple App Store and Google Play Store.
- Designed scalable RESTful APIs with Node.js and Express.js powering both web and mobile platforms; mentored junior and mid-level developers.

EDUCATION

Bachelor of Computer Applications (B.C.A.) — Rajasthan University, Jaipur | 2012 – 2016
